MEDIA ADVISORY

GENESIS SYSTEMS GROUP

AS9100C AND ISO 9001:2008 CERTIFICATION

Monday, December 14, 2015

Davenport, Iowa – Genesis Systems Group, a recognized leader in robotic systems integration, is proud to announce the company’s AS9100C and ISO 9001:2008 certification.

Genesis has been assessed and registered by Intertek as conforming to the requirements of AS9100C and ISO 9001:2008 certifications. The quality management system is applicable to Genesis’ design, manufacture and service of robotic automated equipment for use in agricultural, aviation, space, defense, automotive, construction & forestry, primary metals, furniture, energy and other general industry applications.

About Genesis Systems Group

Genesis Systems Group is a recognized leader in robotic systems integration. Genesis specializes in factory automation with robots for welding, cutting, adhesive application, assembly, machine tending, composite non-destructive inspection and waterjet cutting. Genesis’ solutions focus is backed by expertise in part processing, process development, system and tooling design, motion controls, manufacture, and implementation of industrial automation. With over 4,500 robotic system installations, Genesis has workcells located in 42 states and 15 countries.

Today, Genesis Systems Group’s engineered solutions are used in manufacturing a number of different products; automobiles, construction and agricultural equipment, office furniture, trucks and trailers, lawn and garden equipment, recreational vehicles, and aerospace components to name a few.

Genesis Systems Group has offices in Davenport, Iowa, Rochester Hills, Michigan, San Juan Del Rio, Queretaro CP Mexico and Nagoya, Aichi, Japan. For more information log onto www.genesis-systems.com.
